POSTGRADUATE STUDIES at UCSI

Postgraduate education at UCSI revolves around one thing: smarter solutions for a smarter planet. In science, business and arts, UCSI devotes itself to address society's biggest challenges and prepares postgraduate students for leadership in today's world of end-to-end responsibility. And as you obtain a defining credential, you will see how a UCSI education gives you an edge to make your next giant leap.

You enrol for postgraduate studies at UCSI to do something that matters.

DVC's Message

Professor A K Enamul Haque, PhD

PhD, Natural Resource Economics,
University of Guelph, Canada

Former Dean,
Faculty of Business and Economics, East West University

Former Professor, UIU and NSU

30 years of academic experience

UCSI University, Malaysia, ranks among the top 1% of universities globally, holding the 265th spot in world rankings. No university in Bangladesh matches this quality. I'm excited to introduce UCSI's first branch campus in Bangladesh, offering opportunities for higher education with a global touch.

It gives me immense pleasure to introduce our distinguished Postgraduate Programmes, designed to foster advanced academic growth, innovation, and professional development. As a leading global institution, UCSI University is committed to equipping students with the knowledge, skills, and mindset necessary to thrive in an ever-evolving world.

UCSI's education model is flexible, outcome-driven, and designed to equip you with the skills needed in the 21st-century workforce. Our postgraduate programmes are crafted to address current global challenges and empower students to contribute meaningfully to their chosen fields.

The Bangladesh Branch Campus extends UCSI's mission to provide world-class education that transcends borders, promoting academic excellence and cross-cultural understanding. Whether you are looking to enhance your professional expertise, engage in cutting-edge research, or develop your leadership potential, UCSI is the ideal platform for your academic journey.

Rich academic offerings and opportunities awaits for you at UCSI University Bangladesh Branch Campus.

Dean's Message

Professor Zulkornain Yusop, PhD

PhD, The University of Manchester, UK

32 Years of Teaching Experience

Former President and CEO, Putra Business School, UPM

Former Dean, Faculty of Economics and Management, UPM

Committee Member for AACSB, UPM

It is my pleasure to introduce the School of Graduate Studies at UCSI University Bangladesh Branch Campus. I wish to extend a warm invitation to you to consider joining our esteemed institution. We believe that your unique talents align perfectly with the dynamic and innovative environment we offer at our campus. We offer a range of Master's programmes designed to equip students with the skills and knowledge needed to succeed in today's competitive world. Joining our Master's programmes means becoming part of a vast and influential network of alumni and industry connections. This network provides invaluable opportunities for mentorship, internships, and career advancement.

At UCSI University Bangladesh Branch Campus, we pride ourselves on fostering a culture of academic excellence, professional development, and global perspectives. Our distinguished faculty, cutting-edge curriculum, and state-of-the-art facilities are designed to empower students like you to thrive in the ever-evolving landscape of business.

By three methods we may learn wisdom: First by reflection, which is noblest, Second by imitation, which is easiest & third by experience, which is the bitterest.

WHO YOU WORK WITH MATTERS

The quality of our staff is one thing that distinguishes UCSI postgraduate experience. It starts from the top. Eight Fellows of the Academy of Sciences Malaysia (ASM) sit on UCSI University Council. Together, they use their wealth of expertise and experience to steer the university's direction in the areas of research and postgraduate endeavour.

Our long list of staff who are at the forefront of research and knowledge is a testament to the outstanding contributions they have made in their fields. Some have been officially recognised by UNESCO while others are sought-after by the industry to make the telling difference in significant projects.

First Malaysian University to Publish in the Harvard Data Science Review (HDSR)

UCSI University has reached a new milestone in research after becoming the first university in Malaysia to be featured in the Harvard Data Science Review (HDSR) - a top-ranked journal published by MIT Press, a university press affiliated with the prestigious Massachusetts Institute of Technology.

Assistant Professor Dr Mehrbakhsh Nilashi, Distinguished Professor Dr Ooi Keng Boon and Professor Dr Garry Tan Wei Han were part of a five-man research team that published an insightful paper on Critical Data Challenges in Measuring the Performance of Sustainable Development Goals: Solutions and the Role of Big-Data Analytics in HDSR's Summer 2023 Issue 5.3.

WHY UCSI ?

- Partnership with world-class universities
- Access to the world's best minds
- Strong research focus
- Industry recognition
- A legacy of excellence

OUR PROGRAMMES

- ***Master in Logistics and Supply Chain Management***
- ***Master of Business Administration (MBA)***

TEACHING

Postgraduate teaching at UCSI is delivered in a multi-mode format for full-time and part-time students. Programmes are either research or course-work-based and students are required to complete a range of core and optional courses that are supported by lectures and seminars during their course of study. Performance in research-based programmes is evaluated by the findings, the way results influence fundamental knowledge and the impact factor of one's research. Students who opt for the coursework-based route are generally assessed through a combination of assignments, written exams and dissertations.

STUDYING AT UCSI MEANS

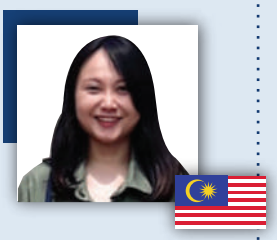
Being able to focus on research and scholarly pursuit that's important to you and chosen by you

Learning from renowned academics who hold public talks at UCSI and serve as visiting professors.

Being part of an international community of students from over 110 nations

Being able to represent the university and nation at overseas competitions and conferences.

ALUMNI TESTIMONIALS

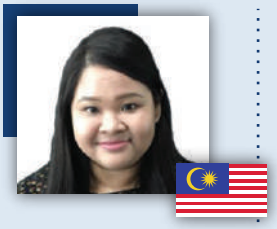


"UCSI University has provided me with the platform and opportunities to build my foundation and to continuously grow. I was able to gain knowledge and improve my hands-on skills. Most importantly, here was where I honed my career goals of becoming a researcher. It was, indeed, a great learning experience."

Ng Choon Ming
Doctor of Philosophy (Science), year 2020
Currently working as a Research Fellow (Nutrition/Digital Health)
at Monash University Malaysia

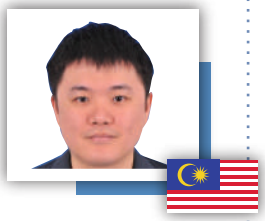
"I am one of 280 applicants from all over Canada who passed Pharmacy Examining Board of Canada (PEBC) evaluating exam in 2019. I also passed Canadian qualifying exam part 1 (MCQ) in 2020. Now I am moving on to the last step to practise in Canada. Thank you to all the lecturers who solidified my knowledge in pharmacy. I also learnt to improve my clinical judgement during my master's degree which helped me a lot in answering various questions. I plan to make my way towards becoming a specialist, thanks to the entire faculty, especially the professors. Hope to visit Malaysia again one day."

Maham Tariq
Master of Clinical Pharmacy Practice, year 2018



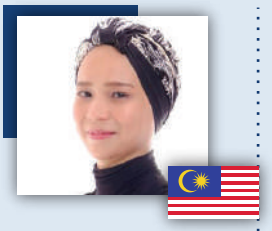
"As a novice lecturer, PGDTT has allowed me to enhance my instructional skills through its well-planned curriculum taught by experienced instructors."

Siti Jah Nuraisyah binti Bharun
Postgraduate Diploma in Tertiary Teaching (PGDTT), year 2021
Currently working as an English Lecturer at UCSI University (CFL)



"I completed my bachelor's degree in UCSI University with first-class honours in Electrical & Electronic Engineering before my postgraduate studies. My master's research focuses on the development of photovoltaic modules model under the supervision of Associate Professor Dr Rodney Tan and Professor Dr Jimmy Mok. In the second year of my master degree, I was very fortunate to be converted to a PhD degree after passing the assessment conducted by the university."

Teo Jin Chuan
Doctor of Philosophy (Engineering), year 2020
Currently working as a Postdoctorate Position in National Taiwan University



"The master's programme really helped me to enhance my knowledge in aesthetics and prepared me for my LCP Certification. The lecturers were very helpful throughout my studies and I had a great time attending the classes and communicating with the lecturers. I highly recommend this programme to my peers who would like to embark in the field of aesthetics."

Dr Safuraa Binti Ab Latif
Master of Science (Healthy Aging, Medical Aesthetic and Regenerative Medicine), year 2019
Currently working as an Aesthetic Physician at Company Ko Skin Specialist

"My work opportunities have grown as a result of my MSc. My master's degree demonstrates that I possess the necessary skills and knowledge to successfully transition into logistics and supply chain management."

Mohammad Nazmuzzaman Hye CMILT
Master of Science in Logistics Management, year 2019
Currently working as a General Manager, Business Development at Interport Group

MASTER IN LOGISTICS & SUPPLY CHAIN MANAGEMENT

Bangladesh

Course Mode
Full-time

OVERVIEW

UCSI University is a Corporate Affiliate Member of Chartered Institute of Logistics and Transport in Malaysia – the Malaysian arm of the international professional body for all sectors of the transport and logistics industry. As such, UCSI and its Graduate Business School have a deep understanding of the various requirements and needs of professionals in the industry. Our Master of Science Management is meticulously designed to address these needs and equip learners with the competitive advantage they require to advance their careers into the managerial levels. The programme focuses on the knowledge and application of the pertinent concepts, techniques, and principles that underlie logistics and supply chain management.

Our programme prepares you for the intense demands of the global marketplace and the managerial role by examining the effective management practices in various aspects of the logistics and supply chain industry. This includes topics such as operations and logistics, inventory, import and export management, as well as logistics strategy. It also covers other areas such as Blue Ocean Strategy, logistics engineering, procurement and port management, in addition to relevant research methods and case studies. Globalisation has dramatically impacted the way companies do business, and qualified professionals are in demand in the international logistics and supply chain management fields. Our programme's encompassing reach and emphasis on industry relevance has attracted participants from all around the world, providing a diverse learning environment. If you are looking for a postgraduate qualification that can provide you an upward mobility in the field of logistics, this programme is the right choice for you and your career.

ABOUT THE PROGRAMME

Programme Details

UCSI University's Master in Logistics & Supply Chain Management is a two-year programme with a trimester offering. Those who do not fulfill the requirement of minimum two years relevant work experience will need to undertake the compulsory co-operative placement. Each semester lasts 14 weeks. Classes are conducted on weekdays and weekends.

Teaching and learning

The Master in Logistics & Supply Chain Management programme provides students with relevant, interesting and stimulating experience via a variety of innovative teaching and learning techniques. The dynamic learning process involves various methods. Methodology and pedagogy vary but include: lectures, case method, team-based approach, active learning, group research assignments, report writing, guest speakers, presentations and seminars. The learning process also includes study trips to complement classroom learning. Furthermore, the small class size creates a collaborative, highly interpersonal environment for graduate business and management education. We consider assessment as an integral part of the learning process and as such assess students continuously throughout the programme. Assessment may take the form of group work, individual assignments or formal examinations. A project or case study is also a requirement in order to complete the programme.

MASTER OF BUSINESS ADMINISTRATION (MBA)

Intakes
January, May and September

Course Duration
2 Years

Course Location
Bangladesh

Course Mode
Full-time

OVERVIEW

The UCSI University MBA programme is specially designed to provide access to higher learning opportunities for both local and international practitioners and professionals. The programme is a practical-based course that incorporates tools, relevant methodologies and provides a systematic approach in making the competition irrelevant. UCSI University incorporates a diverse and exciting blended learning approach by imparting knowledge through workshops, presentations and case studies. UCSI University's MBA programme is supported by a team of highly qualified academicians specialising in various fields and equipped with extensive industry experience. The scope of studies also includes current developments and debates on business and management topics at both the theoretical and applied levels. Graduate students will be encouraged to conduct theoretical exercises on these topics and their relevance to actual practice, in particular, their applicability to small and medium-sized enterprises as well as industries worldwide. Industrial practitioners and corporate consultants will be featured as speakers during the programme. As a graduate programme, the MBA study promotes lifelong learning among learners to prepare them for international employment opportunities, future career development and further research study anywhere in the world.
